**EURENCO INC ANNOUNCES AGREEMENT WITH CALIFORNIA FUELING, LLC**

EURENCO Inc. (Houston, TX), a world leader in diesel fuel additives with the VERYONE™ product line and the largest worldwide producer and US distributor of diesel cetane improver, today announced it has entered into a supply agreement with California Fueling, LLC (Northridge, CA). The agreement supports the manufacturing, supply, and distribution of VERYONE™ advanced fuel additives for California Fueling VESTA™ products targeting NOx reductions in California as it pertains to the states Low Carbon Fuel Standard (LCFS).

EURENCO Inc.'s Chief Executive Officer, Marcos V. Perello, commented "It is part of EURENCO's strategic priorities to support companies working on technologies that are environmentally friendly. The development of VESTA™ products supports carbon reduction initiatives, in line with VERYONE's strategy to lead the way in fuel additives."

California Fueling, LLC's, Chief Executive Officer, Patrick J. McDuff indicated that "security of supply is a key aspect underpinning our business and is a priority for our customers. Aligning with EURENCO is a significant step in securing long term supplies for key VESTA™ ingredients."

The California Air Resource Board announced on July 20, 2017 that it has certified VESTA™ 1000, "that will make B20 blends in California the cleanest proven and tested diesel fuel with the lowest emissions profile available anywhere in the U.S." <sup>1</sup>

VESTA™ 1000's commercial roll out will begin sometime in Q4 2017 with a clear objective to enable up to B20 blends by January 1, 2018 which is in line with the California Air Resources Board's implementation of the Alternate Diesel Fuel Regulation and the associated NOx mitigant requirements.
